

## Un tour de France

This book takes the form of an interactive geography quiz. Pupils learn about different geographical features of France, from mountains and volcanoes to sand dunes and Caribbean islands (you may need to explain that Guadeloupe and Martinique are overseas territories which are governed by France).

Pupils are not expected to know all the answers in advance, but as there are only two multiple-choice answers with each photo, they have a good chance of making a correct guess. The answers are given at the bottom of page 9.

Locate the places mentioned on a large map of France, if possible, using the points of the compass provided in the text (eg *dans l'ouest de la France*) to help you.

Answers to quiz on page 9: 1b, 2b, 3a, 4c

### English translation

#### A tour around France

- p2 Is this a mountain in the Himalayas?  
No, it's Mont-Blanc, in the south-east of France.
