How does it work?

Mystify your friends by always knowing the number they thought of.

Ask your friend to follow the steps carefully.

Think of a number
Add 10
Multiply by 2
Subtract 5
Add 3
Add the number you first thought of
Divide by 3
Tell me your answer

You can always work out their first number quickly by subtracting 6.

They will be amazed!

Here's another magical calculation.

Think of a number
Add 3
Multiply by 4
Subtract 8
Divide by 4
Tell me your answer

The number your friend thought of is always 1 less than the answer.

EXTRA!
Try this puzzle.

Can you see how it works?
