

Science prompts

Use these starting points to help you write about your science.

About the group

- Who are you?
- Who are you working with?
- What are you working on?

About your ideas

- What are you trying to find out?
- What are you going to change in your investigation?
- What are you going to measure?
- What must you keep the same to make it a fair test?
- What do you expect to happen?
- Why do you think this?
- Does anybody else in your group think differently?

About the investigation

- What are you going to do?
- For how long or how many times will you do it?
- What will you need?
- Which measuring tools will you use?
- How will you record what happens?
- How will you present your findings?
- How will you ensure that the investigation is carried out safely?

During the investigation

- Record what happens.

About your findings

- What happened?
- How does this compare with what you expected?
- What have you found out?
- Was the investigation fair?
- How could you improve on what you did?
- Have your ideas changed since starting the investigation?
- Do you have any new questions?
