

Cross numbers

Cross numbers are like crosswords, but instead of letters the answers are numbers. Use your calculator to solve this puzzle.

Across

- 1 one thousand six hundred and seven multiplied by three
- 3 eight hundred and seventy nine multiplied by twenty five
- 6 twelve multiplied by twelve multiplied by ten

Down

- 1 twenty four multiplied by eighteen
- 2 eight hundred and eighty two divided by six
- 4 eleven squared (eleven multiplied by eleven)
- 5 five thousand five hundred divided by eleven

EXTRA!

Make up some puzzles of your own. Ask a friend to try them out.

Tip: To make up your own cross number puzzle, write numbers in a grid first. Use your calculator to get to these answers. Write out the clues and then make another copy of the grid without the answers written in.
