# Plot table

A good way to plan a story is to make a plot table.

Every story needs characters, a time it happens (past, present or future), a problem and a solution.

You can answer all these if you think of:
Who? What? When? Where? and How?

Fill in the plot table for one of your story ideas.

Who?	
What?	
When?	
Where?	
How?	

EXTRA!
Make another plot table and fill it in for a well-known story.
You could write up both stories.
