

# 4

# Fractions

## Step 1

### My strategies

1	$\frac{3}{5}$ of the 5 cars were red and the others were white. How many white cars were there?	
2	$\frac{7}{10}$ of the 10 flowers were alive but the others had died. How many flowers had died?	
3	$\frac{5}{8}$ of the 8 players were boys and the others were girls. How many girls were in the team?	

## Step 2

### My strategies

1	One-quarter of the 12 pencils were blue. How many blue pencils were there?	
2	One-fifth of the 15 basketball players scored goals. How many players scored goals?	
3	One-tenth of the 20 pens did not work. How many pens worked?	

## Investigation

## Dice

Harrison threw a dice 12 times.

- Draw a 6 on  $\frac{1}{4}$  of the dice.
- Draw a 4 on  $\frac{1}{3}$  of the dice.
- Make  $\frac{1}{6}$  of the scores odd numbers.
