

How can we see things?

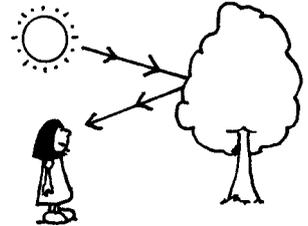

Read

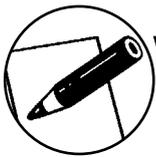

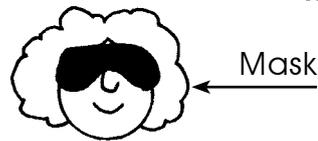

You can see something that gives out light, like a candle. The candle is called a **light**.

You can see anything that light bounces off, like a tree.

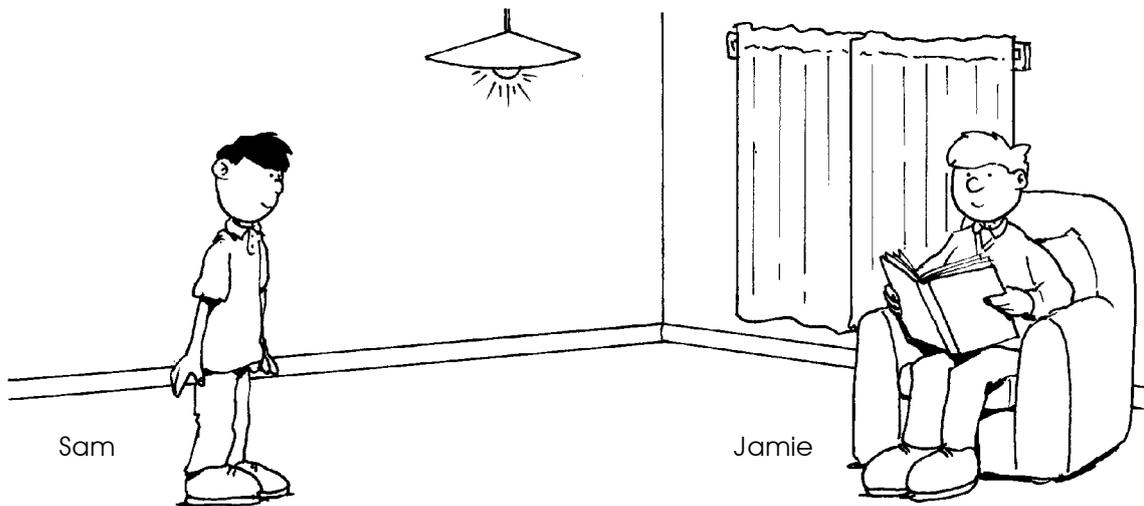

You cannot see when it is completely dark.

What to do

Draw light lines to show why Sam can see Jamie.

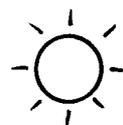

Will the light pass through the wall? **Yes/No**

Think and do

Draw lines to show how Sam can see the light even when he's got his back to it.

light

Sam
