- The three books in the *Brilliant Support Activities – Science* series are an ideal way of introducing scientific terms in Welsh

- Designed to develop the essential skills of observation, predicting, recording and drawing conclusions

- Contain a mixture of paper-based tasks and ‘hands on’ activities

- Reproducible worksheets introduce one concept per sheet. Review sheets also included

- Can be used in any order
- Designed for use by individual pupils or to be used as a class activity.

- Develops problem solving skills and strategies, using a variety of 'real life' situations, all in Welsh
- Differentiated sheets enable you to challenge the most able while providing additional support to those pupils who need it. Problems vary in complexity but the process remains the same, ensuring all children develop essential problem-solving skills
- Problems on each sheet vary in length and complexity
- Reinforces learning in number, measurement, geometry and statistics.

Develop mathematical understanding

978-1-903853-41-2
48 pages. £16.99

- 40 reproducible, illustrated worksheets for use with 4-7 year olds
 - High interest activities develop a thorough understanding of numbers up to 10
 - Activities are grouped into different mathematical concepts
 - Complements any mathematics scheme being followed.

978-1-903853-40-5
48 pages. £16.99
pdf £10.99

- 40 reproducible, illustrated worksheets for use with 5-7 year olds
 - High interest activities to develop addition and subtraction skills
 - Reinforcement sheets use and develop knowledge of number facts
 - Fun, stimulating game ideas consolidate skills learned.

The illustration features a diamond shape divided into four quadrants by a diagonal line. Each quadrant contains a different mathematical equation:

- Top-left: $\bigcirc + \bigcirc = 10$
- Top-right: $2 + \bigcirc = 10$
- Bottom-left: $4 - \bigcirc = 0$
- Bottom-right: $\bigcirc + 5 = 5$

Below the diamond, there is a small cartoon illustration of a boy with curly hair looking up at the frame.

978-1-903853-43-6
48 pages. £16.99
pdf £10.99

- 40 reproducible worksheets for use with 5-7 year olds
 - Fun, attractive activities promote fast, accurate mental calculation
 - Flexible but structured resource for teaching number bonds
 - Develops the skill of being able to calculate at speed by heart.

Refine mathematical concepts

978-1-903853-42-9

- 42 stimulating activity sheets and games for use with 5-7 year olds
 - Help to develop a thorough understanding of early multiplication and division
 - Complements any mathematics scheme being followed
 - Built-in progression but can be completed in any order.

978-0-85747-226-7

- Reproducible games, practical activities and fun worksheets for use with 5-7 year olds
 - Designed to inspire and reinforce maths in the infant classroom
 - Range of mathematical concepts covered from addition and division facts to measuring and shape recognition.

978-0-85747-224-3

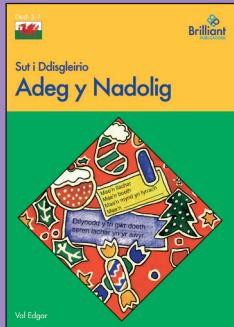

- Over 40 reproducible, worksheets for use with 7–11 year olds
 - High interest activities develop the skills for fast and accurate calculations
 - Introduces a wide variety of techniques and strategies
 - Opportunities to practise, reinforce and assimilate new skills.

The illustration shows five jars arranged in two rows. The top row contains two jars, one labeled 'ash' and one labeled 'gwydd'. The bottom row contains three jars, labeled 'das', 'oren', and 'mælefjall'. Each jar has a small cluster of circles at its base representing a lid.

Reinforce Welsh vocabulary

978-0-85747-160-4
52 pages.
pdf £11.99

978-0-85747-168-0
58 pages.
pdf £11.99

- Reinforce vocabulary and simple sentence structures using these 20 fun, easy-to-play games
- Teacher's notes give instructions, learning objectives and extensions for each game
- Children will practise speaking and listening in Welsh without even realizing it, building their confidence as they go.

Colour relay

Objective: To practise saying colour words and respond by picking up the correct coloured object.

Setting up the game:

- You will need several items of different colours and some number cards for each team.
- The game is best played in a large space so that the participants can run around freely.

How to play the game:

1. Place sets of coloured items in piles on the floor (one set per spot where you are playing).
2. The teacher or leader picks the coloured items in that they can see and asks the children to pick and forth relay.
3. The children run out the first colour.
4. They start the race.
5. The children from each team run to collect what is from their team pile, and return to the team.
6. The game continues in this way, with players picking the board items and running back to their team to collect all the coloured items that have been collected.
7. The team that has successfully collected all the good items to have three or four small teams, with each team having a different colour. The team with the most items wins.

Extension/variation:

- Encourage more challenging puzzle card once, with plenty of items in the pile to choose from.

Gêm i Gloy
www.brilliantpublications.co.uk

7-11 year olds

Slap down numbers

Objective: To practise saying the numbers one to 10.

Setting up the game:

- Players are in pairs, sitting at a table with a copy of the game board and a set of counting cards.
- Each player places their hands down quickly onto a fist.

How to play the game:

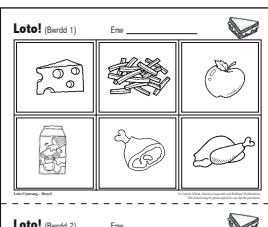

1. Take a coin and decide who starts. Both players have their hands on their heads to begin the game.
2. When the coin lands to start first, both players count together in Welsh slowly, starting from one. The first player to reach the number that one has decided to stop at, slaps the other player's hand.
3. When the counting reaches the number that one has decided to stop at, the first player to reach that number slaps the other player's hand.
4. If the first player to reach that number slaps the other player's hand again (without picking up another item) before the next play, the other player gets to play.

Extension/variation:

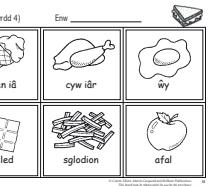

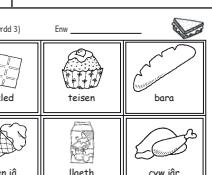

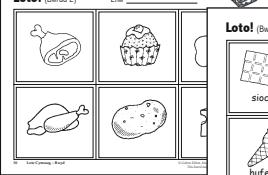

- The game can be made more challenging by counting up in twos, by counting backwards or by counting very quickly.

Gêm i Gloy
www.brilliantpublications.co.uk

- A child-friendly and enjoyable way for children to learn Welsh vocabulary
- Ideal for practising reading, speaking and listening skills
- Easy to use in a mixed-ability class with three types of lotto board provided for each topic: words only, words and pictures, and pictures only.

5-11 year olds
